

The American Future

state. Today their confidence is fading. They see Israel being surrounded by a vast Soviet Empire. The Trotskyites have not recovered power in Russia. The vulgar Goyim are in the saddle; and, what is worse, are operating this Jew-invented system more successfully than the Jews ever did. The cold war has failed.

Now once again Jewish voices are heard in our land, demanding rearmament and adequate national defense. If the SALT talks fail, or rather WHEN they inevitably fail, Nixon and his Jewish pal Kissinger will go before Congress to demand huge defense budgets. They will turn on the mass media to bring a revival of patriotism. The American Jews are doing an amazing turn-about. Having destroyed our armed force, they now seek to reverse themselves. They think that they can set their media hack writers to work and bring a revival of American patriotism.

Bah!

Anti-patriotism will now come from a new source. It will come from the White majority. Our pressure for the scuttling of national defense will be remorseless. Our voices will say, "Get out of NATO. Pull the sixth fleet out of the Mediterranean. Leave Israel to sink. Repeal the draft. Cut defense appropriations."

Why should we be patriotic? The Jew-gangster government in Washington is not a legitimate government. It has been working night and day for years to destroy us. It is THEIR government, not our government. Patriotism requires a rapport between the ruling class and the majority of the people. This is totally missing in the U.S.A. today. When the Jews summon the White Majority once again to the flag, they will be shocked to discover the abysmal depth and magnitude of our disaffection from their system. The Jews have listened to the voices of the phony professional patriots, and have mistaken these voices for our voices. They will find that Whittaker Chambers was right. We are indeed suicidal. We would rather die than live under Jewish rule. They will find us uninterested in national defense. A great many of us are thinking of getting out. A recent Gallup poll revealed that one American in eight, or a total of 24,000,000, want to leave the country.

Where could we go?

Perhaps we could go over to the other side. Perhaps we could go to Russia. Russia wants American technology, especially for the purpose of blowing this sordid, dirty, Jew-ruled American Babylon over the moon. Perhaps a lot of displaced Americans could find homes in the Soviet Union. In Russia we would be among White people. Perhaps we could return after World War III and live here again. At the present time, our instincts tell us that there is no good reason for the existence of the American Civilization. The anti-Communists always tell us that Russia is an extremely wicked place; our experience tells us that the U.S.A. today is a very wicked place. We are constantly being subjected to outlandish abuses, to the destruction of our culture and character. The ruling class is out to destroy the character of our children. Our majority race is oppressed in every possible way. What is left here for us?

People howl, "How can we save the great harlot of Babylon? How can we save dear old Sodom?" Perhaps it is better simply to let the judgment of God fall on Sodom and Gomorrah. Let the Archangel cry, "Come with me and see the condemnation of the great harlot who sits upon the many waters!"

The Jew-ruled American Babylon is not our America. The Jewish ruling class has breached the social contract beyond repair. There is no longer any basis for the existence of an organized society here. The frantic charlatans who dash around the American scene trying to peddle pro-Communist or anti-Communist ideologies are charlatans trying to cover up the destruc-

tion of the social contract and the collapse of moral relations between the rulers and the people. All of the controversialists, from the Neanderthal Conservatives to the bat-witted Liberals, are QUACKS who are TRYING TO KEEP US LIVING IN A WORLD OF ILLUSION TO COVER UP THE BRUTAL REALITY OF NATIONAL COLLAPSE. There are no political ideas which are really worth anything in circulation today. The voice of the quack is heard in the land, but honest men do not speak.

Today this country is the cesspool in which our culture has drowned; it is the pen where we endure our odious subjugation to the Jewish masters; it is the charnel house in which our race is being destroyed. We hold its rulers in more contempt than we have for the lowest criminals. Patriotism? Don't even talk to us about it. Most especially, do not mistake the voices of the phony gasbags and silly old asses of the Right Wing for the voices of the American White Majority. They cannot even communicate with the White Majority.

There is no need to bother about the American future. There is no American future. What can you do about it? Get out while the getting is good. Even the Jews ought to have enough sense to get their vampire fangs out of our necks and run. Negroes should run back to Africa to avoid being mixed up in the well-integrated mushroom clouds.

That is the future of America: the integrated mushroom cloud. We American whites do not worry too much about it. We know that for us there is only one escape from the bondage into which we have been sold: The total destruction of the American-Jewish social order. Falling under Jewish rule is like being conquered by an especially vicious cannibal tribe. We would rather perish in the glory of quick atomic extinction than to be fattened and eaten one by one by this cannibal tribe which rules over us today.

other agencies. Some members were later identified as Soviet espionage agents, among them, Alger Hiss, Harry Dexter White, Lauchlin Currie, David K. Niles. Another member, was Owen Lattimore, with powerful influence in both the Roosevelt and Truman administrations. They were later identified as "conscious, articulate instruments of Soviet international conspiracy."

CFR bragged of having had among its members, Woodrow Wilson, Herbert Hoover, Franklin Roosevelt, Harry Truman, Dwight Eisenhower, John Kennedy, and Richard Nixon. The CFR boasts of having secretaries of state, and many other high officials, both civilian and military, among its members.

The fact that Marxian and Fabian socialists' spies, could work inconspicuously for many years as influential members of the CFR, indicates something very significant about its objectives. Its ultimate objective is the same as that of international socialism: to create a one-world socialist system and make this country a part of it.

The thought control which the CFR exerted upon Congress and the public by the end of World War II, is best indicated by the fact that our solons, in both houses of congress, ratified the United Nations Charter as a treaty, binding us to the program of international socialism. This is clearly specified in the charter approved virtually, without debate, and without any substantial protest from the American people. Most senators who voted to ratify this vicious charter did so without ever perusing it. It is certain that the news-media never read it. If they had, they deliberately omitted mentioning it. Thus we became a member in the one-world organization.

Contrary to Sidney Weinberg's statement that the CFR is not the "invisible government," the facts indicate otherwise. But CFR's over-all policy of internationalism — permanent and irrevocable involvement of this country in all the social, political, economic and military affairs of all nations, until there is no turning back to our national independence, until we would be dragged step by step into world-government, was not yet consciously accepted by us. James P. Warburg, the banker, stated publicly that we are going to have a world-government whether we like it or not!

The CFR, controlling the top leadership of all political parties up to now, kept all genuine discussion from our foreign policy out of the presidential election contest between two CFR members, Thomas E. Dewey and Harry Truman. By 1950 the consequences of our postwar policies had already become so evident that a great debate on our foreign policy had welled up to the surface of public opinion.

It is erroneously stated that Herbert Hoover, a CFR member, led the opposition to the Acheson-Marshall-Truman (all CFR members) policy of internationalism. Instead, Mr. Hoover was in basic agreement with internationalist policy; he differed from Mr. Truman and his clique only as to details. Actually, it was General Douglas MacArthur who led the opposition to the disastrous policy of internationalism. For years he had been under attack by Marxian and Fabian socialists and by a majority of the members of the CFR, whose statements and actions closely paralleled those of the socialists. For example, in September of 1945, the Daily Worker published a series of articles by Benjamin Allen viciously attacking Gen. MacArthur. Simultaneously, this newspaper published an interview with Owen Lattimore, a CFR member, attacking Gen. MacArthur, in similar vein. Mr. Lattimore practically dictated our policy that helped the Marxists take over China and was ultimately characterized by the McCarran Committee of the Upper House as an advocate of the Communist conspiracy.
